PROFESSIONAL SUMMARY

UI/UX Designer with 3+ years of delivering end-to-end interaction design and user research across FinTech, SaaS, and eCommerce platforms. Proven ability to drive 30% performance improvements and serve 10,000+ monthly active users by reducing drop-off rates through data-driven design decisions and A/B testing. Expert in Figma, design systems, wireframing, prototyping, and WCAG 2.1 accessibility. Seamlessly bridges design and engineering in using Angular and Flutter translating user insights into scalable, high-performing products that deliver measurable business outcomes.

PROFESSIONAL EXPERIENCE

UI/UX Designer

(September 2023 - Present)

[JRK Consulting Services, Chennai, Tamil Nadu](#)

- Designed 50+ pixel-perfect web and mobile interfaces in Figma, reducing dev rework by 40% through structured design-to-development handoff
- Led end-to-end product design for FinTech, eCommerce, job portal, and attendance platforms, delivering scalable, user-centered experiences for 10,000+ monthly users
- Translated Figma designs into responsive web applications using Angular (HTML, CSS, JavaScript, TypeScript) and cross-platform mobile apps using Flutter
- Designed and developed interactive admin dashboards with real-time data visualization for internal operations, enabling streamlined workflow management and data-driven decision-making for business stakeholders
- Implemented GSAP, CSS, and jQuery micro-interactions and motion design across 10+ web products, improving perceived performance scores by 20% and increasing user engagement metrics

Trainee UI/UX Designer

(June 2023 – September 2023)

[JRK Consulting Services, Chennai, Tamil Nadu](#)

- Supported senior designers in UX research, wireframing, prototyping, and usability testing within in hands-on exposure to end-to-end product design workflows
- Converted Figma UI designs into responsive HTML/CSS and Flutter interfaces, applying responsive and adaptive design principles under senior guidance

TECHNICAL SKILLS

- **UX Skills:** UX Research, Usability Testing, Heuristic Evaluation, User Personas, Journey Mapping, Information Architecture, UX Strategy, Human-Centered Design, Interaction Design, User Flows, Prototyping, User Testing
- **UI Skills:** Design Systems, Visual Design, Responsive UI Development, Mobile-First Design, Pixel-Perfect Design, High-Fidelity Prototyping, Cross-Platform UI Design, Design Tokens, Style Guide, UI Design, Wireframing
- **Accessibility:** Accessibility, WCAG 2.1, Semantic HTML , Inclusive Design, Accessibility Audit
- **Design Tools:** Figma, Adobe XD, Photoshop, Illustrator , After Effects, Premiere Pro, Framer
- **Programming Languages:** HTML, CSS, Flutter, JavaScript (UI), TypeScript, Flutter, Angular, Bootstrap
- **Animation:** GSAP, CSS Animations, jQuery Animations
- **Analytics:** Google Analytics, Mixpanel , A/B Testing, CTR & Bounce Rate Optimization

PROJECT EXPERIENCE

Jewellery E-Commerce Platform

Figma · Angular · Flutter · FinTech · Admin Dashboard · WCAG 2.1 · CRO

- Designed and developed an end-to-end jewellery e-commerce platform for web and mobile from wireframes to production
- Implemented secure FinTech-integrated checkout and payment processing in design to developed UI
- Built scalable product catalogue and seamless shopping experience
- Developed admin dashboard for real-time inventory, order, and analytics management

Job Portal Application

UI/UX Design · UX Research · Flutter · Journey Mapping

- Conducted UX research to identify user pain points, define user journeys, and establish product success metrics
- Collaborated with stakeholders to translate business requirements into intuitive UI solutions
- Delivered a complete Flutter-based mobile application from concept to final design handoff

Attendance Management Application

UI/UX Design · Cross-Generational UX · Mobile

- Designed a modern attendance tracking application for an internal office tool, targeting a diverse user base spanning both younger tech-savvy users and older non-technical employees.
- Delivered a clean, intuitive, and user-tested UI that reduced the learning curve for first-time users while meeting the visual standards expected by younger audiences

UX IMPACT & ACHIEVEMENTS

- Improved application performance by 30% through optimised Angular and Flutter UI implementations.
- Delivered 50+ pixel-perfect interfaces with structured Figma-to-code handoff, minimising rework.
- Reduced drop-off in critical purchase funnels through targeted onboarding sequence redesign
- Applied A/B Testing to validate design decisions and iterate on high-impact user flows
- Tracked CTR, Conversion Rate, and Bounce Rate via Google Analytics to guide iterations
- Designed scalable web and mobile app UI systems serving 10,000+ monthly active users
- Conducted Heuristic Evaluation sessions, improving task completion rates and reducing user errors

CERTIFICATIONS

C-Tech in UI/UX Design

IMAGE Creative Education, Kanyakumari, Tamil Nadu

(May 2022 – March 2023)

EDUCATION

Bachelor of Engineering

Loyola Institute of Technology & Science, Kanyakumari, Tamil Nadu

(June 2018 – May 2022)
